PATENTED FISH SCALE GRIP

Grippaz® Technology features a fish scale pattern that provides unparalleled grip performance.

Grippaz® are ergonomically designed to provide traction grip on the outside and on the inside of the glove.

Grippaz® proprietary nitrile formula offers enhanced flexibility and fits more snugly than traditional gloves, providing maximum comfort, durability and dexterity.

Grippaz® Technology

PATENTED

The patented Grippaz fish scale pattern has distinct advantages over gloves both with other patterns or with no grip pattern.

The lattice effect improves the tensile strength, while also creating a rip stop barrier to small snags.

Most importantly, the fish scale pattern is duplicated on the inside and outside of the glove, improving grip between the glove and object,

and concurrently between the hand and gloves.

The inner pattern is comprised of a series of island and channels which help to channel away moisture or sweat from the hand.

This improved grip means the gloves doesn't slide about on the hand, inevitably leading to higher productivity and fewer accidents.

LET'S TAKE A CLOSER LOOK

Because our glove is ambidextrous, you don't have to split a pair to replace a damaged or misplaced glove. They are not hand specific, so can be packed in dozen pairs, 2 dozens, dispenser boxes, bulk or any combination in between.

Reduced costs and better value!

Ambidextrous

Beaded Cuff

The cuff is beaded and designed so it doesn't flop down in use and can easily be worn under over-sleeves. It also offers better drip protection for the forearm and increased strength when donning.

Variations

Because no two industries are the same, we manufacture our gloves in different lengths and thicknesses for specific applications and use.

Dexterity

CE Dexterity Level of 5 (highest level). Grippaz achieve a dexterity level of 5 giving the user the best purchase possible.

Traction Grip

Ergonomically designed not only for wet and oily grip on the outside but also to reduce hand slippage on the inside, creating a unique double sided fishscale grip pattern that gives the user the grip needed.

Better Fit

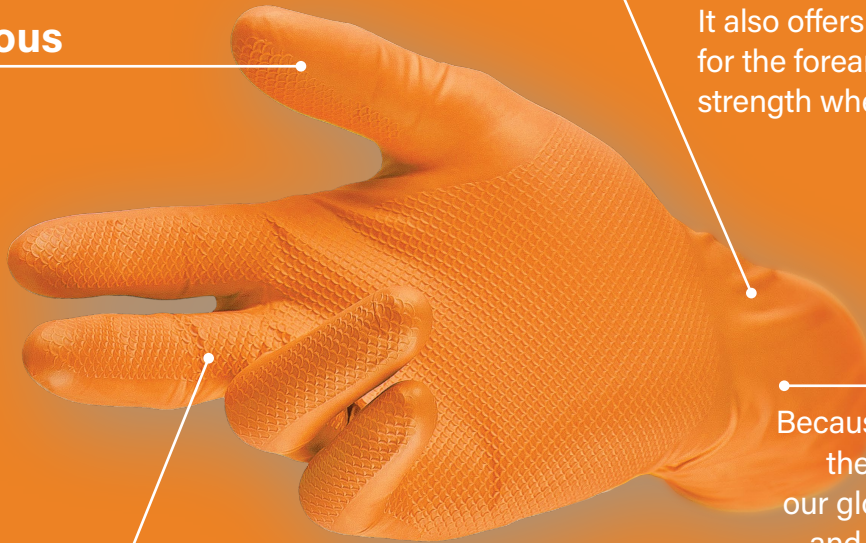

The soft stretch formula allows the glove to fit more snugly than traditional household gloves giving the user more comfort and a better fit.

100% Nitrile

We use a specially formulated 100% nitrile compound offering better chemical and puncture resistance over latex. Zero risk to latex protein allergies.

Formulations

Each product in our range is produced using a specific nitrile formulation to match the potential risk level to the user.

GRIPPAZ® EXTENDED USE GLOVES

In grip tests conducted by the UK's leading testing house for PPE products, Grippaz gloves out performed all comers, including market leading brands for grip performance.

Tests were carried out using motor oil and detergent/water

OUR GLOVES

LIGHT TO HEAVY DUTY APPLICATIONS

- ✓ **Globally patented fish scale design with internal and external grip pattern provides superior traction with wet or oily parts while significantly reducing hand fatigue.**
- ✓ **Thicker mil and flexible, proprietary formulation offers Extended Use by lasting up to 5X longer than regular disposable gloves in industrial applications and out-performing unsupported nitrile gloves in dexterity and tactile sensitivity.**
- ✓ **Touchscreen compatible to allow the user to operate a touch screen phone or device without removing gloves.**
- ✓ **Foodsafe – manufactured in compliance with EC 10/2011 and EN1186 for handling all types of food stuffs.**

Grippaz 246BK
0.15mm

Grippaz 246OR
0.15mm

Grippaz® Skins

Enhanced flexibility and comfort while being resistant to many chemicals commonly used in Industrial and OEM applications including oils, grease and cleaning solvents.

IDEAL FOR:

- > Handling Oily and Wet Parts
- > Paint Spraying
- > Automotive Service and Repair
- > Electroplating Objects

Grippaz 306DB
0.15mm

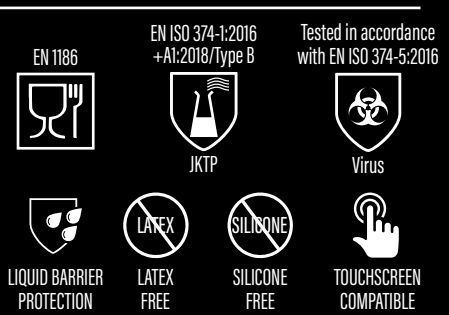

Grippaz® Food Plus

Excellent performance with animal fats and proteins by providing enhanced grip and degradation resistance.

IDEAL FOR:

- > Poultry Processing
- > Fish Processing
- > Fruit & Vegetable Processing
- > Dairy Production
- > Red Meat Processing

TESTIMONIAL

Client

**Indirect
Procurement
Supervisor**

“ Good Quality. Superb Stretch.
This reduces costs. Grippaz Gloves can be wash
and reused. By maintaining the original conditions
process and the gloves are still like new. ”

**Production
Worker**

“ Tough and works well in contact with animal fats.
Can be worn throughout the shift without changing
gloves. ”

**Chicken
Packer**

“ Better grip than the gloves I previously used. Even
in wet and slippery condition, Grippaz last longer
than any other Nitrile Gloves we had used. ”

Independently Tested

We are a member of SATRA. We speak to the testing and compliance technicians on a daily basis to ensure our products comply with international requirements.
